

Nutrition & Exercise Physiology

Seminar Series Fall 2018 Schedule

Date	Speaker	Lecture Title
Sept 4	Booth Lectureship - Laurie Goodyear, PhD Joslin Diabetes Center	<i>Exercise: New molecular discoveries mediating the beneficial effects on health</i>
Sept 13	Danielle Reed, PhD Monell Chemical Senses Center	<i>Bitter and sweet taste genetics: Mice and man</i>
Sept 20	Paige Geiger, PhD KU Medical Center	<i>Heat shock proteins in the prevention of metabolic disease</i>
Sept 27	Marc Kaufman, PhD Penn State University	<i>The exercise pressor reflex in health and simulated peripheral artery disease</i>
Oct 4	Lindsey Haynes-Maslow, PhD North Carolina State University	<i>Translating research for federal food and nutrition policy</i>
Oct 11	Allison Sylvetsky Meni, PhD George Washington University	<i>Low-calorie sweeteners: Consumption trends and metabolic effects</i>
Oct 18	Joe Brozinick, PhD Lilly Pharmaceuticals	<i>The underappreciated role of skeletal muscle in metabolic dysfunction</i>
Oct 25	Lisa Cooper Hudgins, MD The Rogosin Institute/Weill Cornell College of Medicine	<i>Dietary carbohydrate and de novo lipogenesis</i>
Nov 1	Ginny Brooks, PhD Oregon Health Science University	<i>Obesity increases sympathetic nerve activity: Sex matters</i>
Nov 8	Gary Van Guilder, PhD South Dakota State University	Lactate and Cardioprotection: A forgotten missing link?
Nov 15	Health Science Research Day and Obesity Week	<i>No Seminar</i>
Nov 22	Thanksgiving	<i>No Seminar</i>
Nov 29	Lorrene Ritchie, RD, PhD University of California	<i>Childcare nutrition in California: Conducting research to inform policy</i>
Dec 6	Matthew Steinhauser, MD Brigham and Women's Hospital	<i>New insights into the dynamics of postnatal adipogenesis: Implications for systemic insulin resistance</i>
Dec 13	Final Exams	<i>No Seminar</i>

Seminars are held in Acuff Auditorium, School of Medicine, on Thursdays from 4:00 – 5:00 PM
